

Heatwave

Underlay

A super soft flame retardant PU foam underlay which is specially **designed for use with under floor heating.**

- Fire safety comes first**
 HeatWave is designed to be safer if a fire breaks out in the home, thanks to its flame retardant properties...so there's no need to worry about hidden dangers under your floor if the worst should happen.
- That soft feeling...**
 HeatWave is made from very pure polyurethane foam, so is incredibly soft and gives unbeatable underfoot comfort...sitting on your carpet will feel like sitting on your sofa!
- Heatwave under the floor**
 HeatWave has a tog value of only 0.96 which allows underfloor heating to work away at keeping the room nice and warm. Made with 100% recyclable polyurethane foam.
