Simply Better

WELCOME TO QA

**QA FLOORING SOLUTIONS
IS ONE OF THE WORLD'S
LEADING MANUFACTURERS
AND DISTRIBUTORS OF
LVT FLOORING, UNDERLAY
AND ACCESSORIES.**

In the UK, we operate a large distribution centre with capacity to provide next day delivery if required.

Our growth has been achieved through our relentless focus to be 'Simply Better' than our competitors by producing innovative and highly desirable products, delivering world class service and critically, selling products that suit every application and budget.

Keeping it simple. Always being better... That's what QA is all about.

6 GREAT REASONS TO LOVE QA

For all orders over
£300.00 + VAT
free delivery is available.

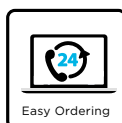

Our huge range makes
sourcing all your flooring
needs easy! With our
products in stock we're the
perfect single source partner.

NEXT DAY DELIVERY
available on request.

If there's anything you're not
happy with - we'll put it right.
**QUICKLY, HONESTLY
AND GENEROUSLY.**

Whether it be phone, online
or email, our service is geared
to your convenience the
moment you make contact -
EXPERIENCE IT TODAY!

One of the biggest stock
holdings of underlay and
accessories in the UK.

HOW TO ORDER?

0151 495 3434

sales@qaflooringsolutions.com

0151 427 0484

trade.qaflooringsolutions.com

All orders are accepted subject to our Terms and Conditions of Sale – a copy of these is available on request.

Our Delivery Service

We offer a standard 2-3 day delivery service with next day delivery available if required. We also offer a range of delivery options, from timed deliveries to home address and site drops so you can be sure that you get your goods on time!

Delivery options

- **Standard delivery FREE over £300**
- **Below minimum order value £24.50**
- **Delivery to building site / home address £40**
- **AM / before 12pm £45**
- **Saturday / same day P.O.A.**
- **Outside mainland UK / export P.O.A.**

Delivery cost correct at time of print and may be subject to change.

REVIEWS

**WHAT DO OUR
CUSTOMERS SAY?**

'Great service and prices, never had an issue.' 'Happy with your service and your products.'

Flooring retailer, London

'Excellent customer service, rapid responses to emails and orders placed... Would recommend!'

Flooring retailer, France

'Very efficient, prompt and reliable service that we can trust and rely upon.'

Flooring retailer, North Wales

ONLINE ORDERING

You can now order online at our trade only portal which can be found at: trade.qaflooringsolutions.com

Contact your Account Manager to get set up today!

BENEFITS OF ORDERING ONLINE

Order at your convenience using our online portal and you can...

- ✓ Check current stock levels so you can plan your jobs with confidence.
- ✓ Quickly re-order frequently purchased products by accessing them through your Saved Items.
- ✓ Access your invoices, credit details and other accounting information.
- ✓ View technical data / COSH sheets and instruction documents.

**Order ONLINE NOW through our trade portal.

TRAFFILAY

**A SIMPLY BETTER WAY TO FIND
YOUR PERFECT UNDERLAY.**

How Traffilay works

Having decided on your floor covering (wood, carpet, etc) think about the foot traffic the room or area usually receives. For example, bedrooms are typically light traffic, living rooms usually medium, and hallways and kitchens would be considered heavy foot traffic areas.

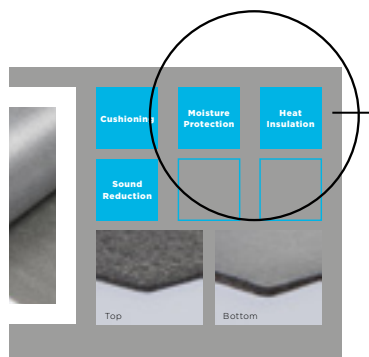

Then choose the features and benefits you want most – like cushioning, durability or insulation.

Finally, from your shortlist of suitable underlays, decide which is closest to what you need.

In the brochure

Our products are arranged by type of floor covering and the recommended traffic level.

The main features and benefits will be highlighted in the six-square panel next to each product. This will help you make the best selection that meets your needs.

**Looks for the features to help
you make the right choice for
your needs.**

Simply Better

Wood Underlays

At the heart of any complete flooring solution is the underlay. We should know - we sell millions of square metres every year! In this section you will find all you need to know about our underlay options for wood and laminate floors.

100% recyclable PE foam
wood underlays for light traffic
offering terrific value.

Suitable for use with laminate and engineered wood flooring (floating floor installation).

Longer-lasting flooring

UniBase gives your floor covering the perfect level of support to protect it from excess wear and even high impact damage – all of which helps your floor look good for longer!

Lightening the load

The ultra lightweight polyethylene foam material makes UniBase so easy to lift and manoeuvre... you won't believe just how much time and effort that can save you on every installation.

Protects against damp

Don't worry about moisture rising up from the sub-floor – UniBase Silver and UniBase Gold have the added benefit of a metallised vapour barrier that overlaps and protects your floor covering and keeps your room dry as a bone.

Kinder to the environment

100% recyclable closed cell polyethylene foam means that when you use UniBase, you're being kinder to the environment in the long run.

Silver Lux
Underlay

Great value 100% recyclable PE foam wood underlay with **moisture protection overlap**.

Protects against moisture

SilverLux gives reliable protection against moisture rising from the sub-floor, keeping your floor dry.

Faster and cleaner fitting

There's no wasting time with SilverLux – it's not only lightweight to lift and move around, but really easy to cut and install so you can get on with the job.

SilverLux gives you less clearing up to do afterwards, as it's dust free and so cleaner and easier to install.

Made with 100% recyclable polyethylene foam.

Barrier & Barrier Plus Underlay

Lightweight PE foam
wood underlay for medium traffic
with vapour barrier.

Suitable for use with laminate and engineered wood flooring (floating floor installation).

Protects against damp

Barrier has a clear printed vapour barrier on one side, which effectively and economically stops moisture rising from the subfloor to keep your floor dry.

Barrier Plus has a vapour barrier on both sides and a double overlap, so you're even better protected against rising moisture to keep your floor bone dry.

Support against impact shock

Barrier and Barrier Plus give your floor covering the perfect level of support, guarding against excess wear and even high impact damage. It feels good under your feet, too!

Light fantastic

While they're not lightweight in performance, **Barrier** and **Barrier Plus** certainly are easier and safer to lift and handle compared with many underlays – thanks to their ultra-lightweight PE foam making them a breeze to lift and move around... saving time and effort during installation.

The advanced moisture barrier gives this underlay even better resistance to fungi, mould and bacteria and dust-free installation means it is cleaner and easier to work with.

The 100% recyclable polyethylene foam makes this underlay very eco-friendly and kinder to the environment.

Don't forget our Barrier Jointing Tape that can be used with Barrier wood underlays for added joint seal protection, extra strength and stability, see page 96.

Dense PE foam featuring **ultimate damp protection**.

Ultimate protection against moisture

Don't worry about moisture rising up from the subfloor – ProTech is laminated with a full 1000-gauge damp-proof membrane (300 above the industry standard), plus a joint sealing system to keep your room dry as a bone.

Shhh! Underlay at work

Sound insulation... no need to worry about noise levels. ProTech has the added benefit of providing up to 22dB sound reduction.

Lightening the load

The lightweight polyethylene material means ProTech's not only a breeze to lift and move around, but also quick and easy to cut and install – saving time and effort during installation.

FineFloor TechniBoard & FineFloor FibreBoard

Underlay

Lightweight panels to **eliminate uneven subfloors** and improve insulation.

Suitable for use with laminate and engineered wood flooring (floating floor installation).

FineFloor Fibreboard is made from natural wood fibre, offering eco-friendly and stable support for your floor. Not only is the material completely natural and 100% recyclable, Fibreboard is really easy to line up, fit and cut saving you time during installation.

FineFloor TechniBoard is made from clever XPS material, providing a lightweight yet durable solution for uneven subfloors. The modern polystyrene material is easy to lift and move around, helping to get the job done quickly.

Being dust and fibre free means TechniBoard is cleaner to install and helps prevent allergy problems.

Keep out the cold

With exceptional insulation properties, the FineFloor range is perfect for use on ultra-cold subfloors. So, in a basement for example, it'll make your room feel so much cosier and usable.

Quietly does it

Both Fibreboard and TechniBoard have high impact sound reduction, deadening any loud noise to make the whole room quieter and more peaceful

**QuickTherm & QuickTherm
Vapour
Underlay**

Perforated PE foam underlay specially designed for **underfloor heating**.

Suitable for use with laminate and engineered wood flooring (floating floor installation).

QuickTherm is a red PE foam underlay with innovative perforations which allow optimum transfer of heat from an underfloor heating system to the room.

QuickTherm Vapour is orange in colour and has the additional benefit of a built-in vapour barrier with overlap, to stop moisture rising up from the subfloor.

The underfloor heating underlay

Along with the unique perforated design, QuickTherm and QuickTherm Vapour have extremely low tog ratings which mean your underfloor heating system can work more efficiently which helps with your energy consumption (QuickTherm 0.35 Tog / QuickTherm Vapour 0.303 Tog).

Lifelong supporter

The very dense closed-cell polyethylene material can take the weight of heavy loads long-term, supporting and protecting your floor to keep it in good shape for a longer life

Easy installation

QuickTherm and QuickTherm Vapour are strong on performance but light in weight making it easy and convenient to transport during installation; and being 100% recyclable and dust-free means there is less clean up to do afterwards!

WorkPro Life & WorkPro Tack
Underlay

Hardwearing physically crosslinked, closed-cell polyolefin foam underlay.

Suitable for use with laminate, tongue and groove and engineered solid wood flooring (floating floor installation).

Quiet please...

WorkPro has excellent sound reduction of 20dB – which makes a huge difference with wooden and laminate floors, keeping noise levels more comfortable in any room.

Longer-lasting performance

With all the compression-resisting benefits of physically crosslinked polyolefin foam, WorkPro is not only extremely durable but always makes sure your floor is fully supported and stays in shape longer, however heavy the load.

Fit it fast!

WorkPro Tack has the added advantage of an adhesive coating for faster fitting. Covered by a peelable protective film, the strong adhesive on one side of WorkPro Tack means fitting's much easier than traditional nailing and gluing – so it's installed in double-quick time!

There's less cleaning up after installation too, as WorkPro is a dust-free underlay.

TimberTech Elite & Elite Plus Underlay

Wood underlays that deliver a new level of **noise reduction** and comfort.

Suitable for use with laminate, engineered and solid wood flooring (floating floor installation).

Shhh! Underlay at work

TimberTech Elite Plus reduces walking noise by up to 32% and impact sound by up to 21dB, cutting down noise level and making the room a more comfortable place to be.

Ideal for underfloor heating

With a very low tog value of 0.1, TimberTech Elite and Elite Plus are the perfect choice if you have underfloor heating, letting it heat the floor more efficiently.

Provides strength & stability

The high density and compressive strength fully support the floor and prevent movement, keeping it in good shape for a longer life.

Protects against moisture

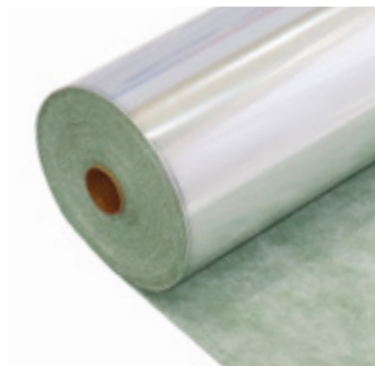

A silver vapour barrier gives superior protection against moisture rising from the sub-floor, keeping your floor dry.

TimberTech Neo & TimberTech Neo Acoustic Underlay

Heavyweight natural crumb rubber underlay with **outstanding noise reduction**.

Shhh! Underlay at work

TimberTech Neo is a 3mm thick, rubber crumb underlay providing an impressive 23dB sound reduction.

TimberTech Neo Acoustic is a 5mm thick rubber crumb underlay making it a winner for heavy weight jobs. In addition, this superb underlay has a felt backing which provides stability when cutting and installing and an even more impressive 26dB sound reduction.

Dry as a bone

The silver vapour barrier on TimberTech Neo and the gold vapour barrier on TimberTech Neo Acoustic prevent moisture rising from the sub-floor – protecting your floor covering against damp.

Old tyre, new life

TimberTech is made with rubber from recycled tyres, which means old tyres don't go into landfill – so it's better for the planet.

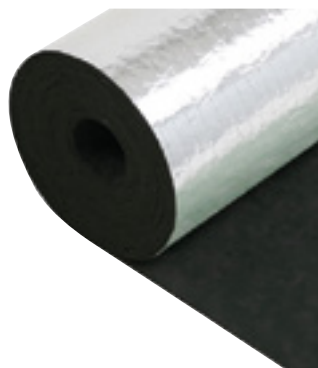

Use QA Vapour Tape on joints for added moisture protection. See page 96.

Carpet Underlays

It's easy to think all carpet underlays are the same. After all, they spend most of their life hidden away. But you'd be surprised how much difference choosing the right underlay can make to any room. Mainly it is about comfort, but it can also be about keeping flooring looking good for longer.

FloorSure Silver, Gold & Platinum
Underlay

Resilient PU foam with a **truly luxurious feel.**

Feels great to feet

FloorSure is made from a polyurethane foam that's light in weight but gives your feet a real treat – warm and comfortable, coupled with a softness that feels simply gorgeous!

Light fantastic

FloorSure is certainly much easier and safer to lift and handle compared with sponge rubber and felt underlays – thanks to its lightweight PU foam.

FloorSure also offers very good thermal insulation, to help your whole room feel warmer and more comfortable.

It's not only light and easy to manoeuvre, but also quick and easy to cut and install – saving time on installation.

With 100% recyclable polyurethane foam, this eco-friendly underlay improves the environment in more ways than one.

SpringBack Silver & Gold
Underlay

A premium PU foam underlay
with excellent bounce back ability.

Pure underfoot luxury

SpringBack top-grade polyurethane foam has an unbelievable softness to give unbeatable underfoot comfort.

SpringBack by name...and nature

It's all in the name...SpringBack really performs under pressure, retaining its ability to spring back much better than a typical sponge rubber product. Your carpet will look good for so much longer!

Designed for durability

SpringBack is extremely hardwearing and won't dry out, crumble or react to everyday household cleaners. In fact, it's guaranteed for the lifetime of the carpet!

With 100% recyclable polyurethane foam, this eco-friendly underlay improves the environment in more ways than one.

PowerWalk Silver & Gold Underlay

High Density PU foam underlay perfect **for heavy duty domestic use.**

High density and hardwearing

The polyurethane foam in PowerWalk is extra high density (130kg/m³) so it's extremely hardwearing, keeping your carpet looking good for longer.

Performance under pressure

Under pressure, this is an underlay that really performs - with excellent compression recovery - to help your carpet keep that 'just-fitted' look.

Keeps flooring in its place

PowerWalk Silver has excellent stability to stop movement in your carpet, greatly reducing wear and tear.

Excellent thermal insulation

PowerWalk Silver has a 2.3 tog rating with PowerWalk Gold delivering 2.92 tog performance; which means your whole room feels warmer and more comfortable.

Sound Reduction

The sheer density of PowerWalk helps give it first-rate impact and sound insulation (Silver 38dB / Gold 44dB), making your room quieter.

A super soft PU foam underlay which is **flame retardant**.

Fire safety comes first

HeatWave is designed to be safer if a fire breaks out in the home, thanks to its flame retardant properties...so there's no need to worry about hidden dangers under your floor if the worst should happen.

That soft feeling...

HeatWave is made from very pure polyurethane foam, so is incredibly soft and gives unbeatable underfoot comfort...sitting on your carpet will feel like sitting on your sofa!

Heatwave under the floor

HeatWave has a tog value of only 1.2, which allows underfloor heating to work away at keeping the room nice and warm.

Breathe

Breathe is an exciting new innovation in underlay, designed to offer underfoot luxury and improve your air quality to look after your health. Its natural wood fibres filter out dust, even the smallest particles, for a fresher, cleaner, more comfortable home.

- Supremely comfortable to walk on, Breathe is ideal for every room in the house. It's strong and stable, yet lightweight, making it easy to cut and install; and being fully biodegradable, Breathe is better for the environment, even at the end of its life!
- Breathe is an extraordinary innovation in underlay: made from FSC[®] certified wood fibres, it has the ability to improve the air quality in your home.
- As well as having incredible filtering properties, this material is extremely consistent – none of the hard lumps and bumps associated with some underlays. In fact the quality is outstanding, and Breathe fully meets every BS5808 performance standard.

The alternative to
PU underlay that
is in stock now.

The mark of
responsible forestry
FSC[®] C132556

Only Breathe is FSC[®] certified.

Why it's a breath of
fresh air for floors

Easy to cut and install

Breathe is easier to work with than standard PU underlay, offering cleaner cuts and no snagging.

Faster installation time = more turnaround

Our tests have shown that a fitter can install Breathe up to 3x faster than a PU underlay.

100% Natural Product

There are no lumpy bits in Breathe underlay which saves fitters having to patch any uncomfortable areas.

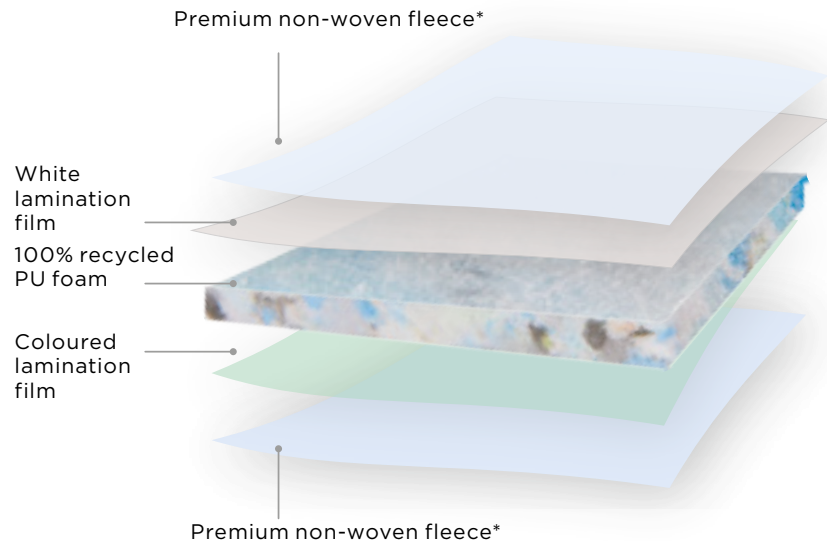

COMFORT UNDERFOOT STARTS WITH QA - STEP RIGHT THIS WAY!

QA PU underlays are made from high-density foam and have a strong non-woven fleece layer on both sides. They are tested and recommended for luxury use.

*Premium non-woven fleece gives a soft feel and makes the underlay very stable (preventing stretching and rucking under the carpet).

SoundBarrier
Underlay

High performance acoustic underlay for **glue down and click LVT Installations.**

Quietly does it

SoundBarrier provides an exceptional 24dB of impact sound reduction - higher than any other LVT underlay available. It also reduces walking noise by 31%, making the room a whole lot quieter.

Built to last

Made from a high-density polypropylene foam, SoundBarrier will easily last the lifetime of the floor, even under the heaviest foot traffic. It creates a stable base which supports the floor for life.

Protects against damp

The unique moisture-guard properties of SoundBarrier stop moisture getting through from the sub-floor, keeping the floor dry.

SoundClick
Underlay

Lightweight underlay for click LVT flooring, with **anti-slip top surface**.

No slip-ups with the floor

SoundClick has an anti-slip top surface, which holds the flooring firmly in place. It makes it so much easier to fit, without the pieces sliding around. And when the floor is down, you can guarantee it won't be going anywhere – even if it takes the full force of family use!

Sound reduction

The dense, closed cell polyolefin foam of SoundClick gives it 18dB sound reduction – so it deadens any loud noise and makes the whole room quieter.

That warm feeling

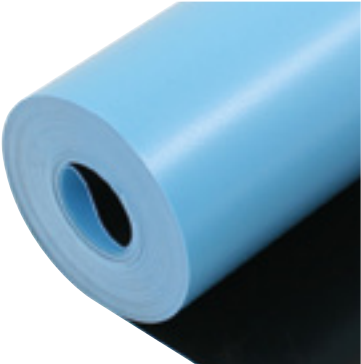

SoundClick has an ultra-low tog value of just 0.27, which means your underfloor heating system works much more efficiently, keeping your floor lovely and warm!

The crosslinked, closed cell structure of the foam resists compression, making sure your floor's supported for life, however heavy the load is.

SoundClick is very lightweight, making it easy and safe to lift and handle. It's also a dream to cut, so takes time and effort out of installation.

Acoustic Solutions

Heavy Traffic

Acoustic system which helps **comply with Part E of Building Regulations.**

Regupol® Sonus 3912 is a tough, resilient acoustic underlay manufactured from PUR Foam and is ideally suited to refurbishment and timber-based constructions to comply with Part E. It can also be used for new build.

Regupol® Sonus 4515 Multi & Eco are multi-purpose acoustic underlay systems which help comply with Part E of Building Regulations for impact sound reduction. They can be used over most types of sub floor and with all types of floor finish.

Performance under pressure

Regupol® Sonus offers long term performance without collapse or “bottoming” out under high point loads and is resistant to ageing and deformation. With high quality and exact material thickness guaranteed, it reduces construction heights.

Comfort under foot

Suitable for use with under floor heating and is also very comfortable under foot.

Fit it fast!

Quick and easy to install. Simply bond to the subfloor beneath the final floor finish.

Manufactured using recycled materials and 100% recyclable.

Consultation with our Technical Support Team is recommended prior to specification.

Quiet Cork
Underlay

Quiet Cork is a Recycled Cork & EVA Resilient layer that has been developed to reduce impact noise on both timber and concrete floors and can also be used with carpet and laminate flooring.

Lightweight performance

Cork cells are filled with a mixture of gasses which reduces weight, the composite of Cork is approximately 40% bark and 60% gas which helps keep the weight low.

Environmentally friendly and sustainable

Cork is also a product that can be fully recycled once the product is at the end of its life, all of the cork used in our Quiet Cork acoustic underlays is from recycled cork.

Benefits of cork

- Anti-Static
- Anti-Allergic
- Bug Resistant – Cork contains suberin which is a natural insect repellent.
- Air Quality – Naturally antimicrobial and water resistant.
- Fire – if cork is burnt, no toxic fumes are emitted.
- Thermal Insulator - thin underlays are suitable for underfloor heating.
- Carbon Negative – any waste is recycled back into the production line.
- Sustainability – Portuguese Cork Oak Trees retain approximately 14 million tonnes of CO2 yearly, no trees are cut or damaged when harvesting.

Quiet Cork Underlay

- * Only 2mm suitable for underfloor heating.

E-Board Timber, E-Board Concrete & E-Board Pro Underlay

High performance underlay system for timber and concrete subfloors with **brilliant acoustic performance.**

E-Board Timber is a high-mass yet resilient high-performance acoustic underlay, designed to help reduce both impact and airborne noise that helps meet or surpass Building Regulations Part E Resistance to the Transmission of Sound, primarily for timber sub-floors.

E-Board Concrete is ideal for new, retrofit or renovation projects in offices, homes and hotels. E-Board Concrete helps meet or surpass Building Regulations Part E Resistance to the Transmission of Sound, primarily for concrete sub-floors.

E-Board Pro - High Mass acoustic resilient layer that has been specifically designed to reduce impact and airborne noise primarily on timber floors.

Quiet please...

E-Board with a layer of Class O Acoustic Foam under or sandwiched between an acoustic barrier means excellent impact (53-57dB) and airborne sound (47-54dB) insulation - ideal for new, retrofit or renovation projects in offices, homes and hotels.

Fire safe and sound

Meeting BS476: parts 6 & 7 - the highest level for Class O - the Acoustic Foam is a fully tested for fire resistance - and peace of mind.

Commercial or residential - meet the regs

Whether it's used in commercial or residential installations, you can rely on E-Board to fully comply with Doc E of the Building Regulations.

Ideal under any floor finish - carpet can be fitted directly onto it, but for solid wood, laminate, ceramic, or vinyl we recommend adding 6mm ply or MDF to reduce flex.

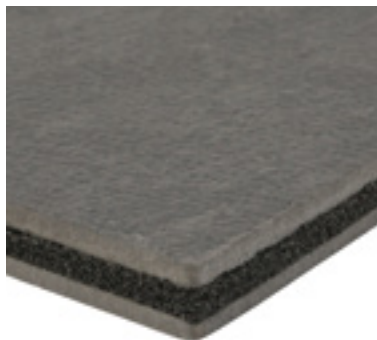

With any type of uneven subfloor, the E-Board underlay levels it out to provide a perfect base for any floor covering.

Save time and effort during fitting with lightweight 1.2m x 1m tiles that are easy to lift and simple to cut and install.

Floor Levelling System

Sub Floor Preparation

Jumpax Basic
Underlay

High quality MDF free-floating **floor levelling system.**

Jumpax Basic is an extremely quick and cost-effective way to level your sub floor when compared with the traditional methods of screeding or ply boarding the sub floor.

Easy does it

With a 3mm base and 4mm top board bound by a special interactive adhesive, Jumpax Basic is quick, clean and easy to install compared with traditional screeds. It preserves the sub-floor and allows you to lay the finished floor covering quicker, saving you time.

Smooth, stable and simply warmer

The system is ideal for creating a sub-floor layer over underfloor heating systems for a perfect finish ready for the floor covering – with very low thermal resistance (0.7 tog) to really let heat through.

Lightening the load

The lightweight MDF material means Jumpax Basic is a breeze to lift and manoeuvre, so with its quick and easy installation you'll really save time and effort.

Impact sound reduction

Jumpax Basic has the added benefit of providing a sound reduction of 21dB (when installed over QA TechniBoard underlay) - See page 23.

Did You Know?

You can paint our White Scotia any colour you choose to match the colour of your skirting boards.

Standard Gripper Accessories

QA Standard Gripper offers premium performance with variants to suit every carpet and subfloor, domestic and contract use. With a pronounced bevel edge for an easy and consistent roll edge finish, it's made from high quality 20mm wide 5-ply plywood with zinc plated nails and galvanised pins – giving exceptional carpet holding strength.

3 Floor Nail Specifications

Dual Purpose Nail, Concrete Nail, Wood Nail Gripper. 2 Pin Heights. Short Pin 3.2mm (1/8") – for cord carpeting and some low tuft carpets. Medium Pin 4.8mm (3/6") – the more usual pin length, suitable for most types of carpet.

Standard Dual Purpose Gripper

Pre-nailed with dual purpose nails for wood and concrete subfloors.

Standard Concrete Nail Gripper

Pre-nailed with masonry nails, specially designed for ease and speed of installation and an exceptionally strong fixing on concrete subfloors.

Standard Wood Nail Gripper

Pre-nailed with specially tempered nails (threaded for ultimate holding power), for easy, fast installation on board and suspended timber subfloors.

Available in

Code	Nail	Pin Height	Size	Boxed	Pallet Quantity
QAA-GST-DS	Dual	Short	5ft	500ft/box	50 boxes/pallet
QAA-GST-DN	Dual	Medium	5ft	500ft/box	50 boxes/pallet
QAA-GST-CN	Concrete	Medium	5ft	500ft/box	50 boxes/pallet
QAA-GST-WN	Wood	Medium	5ft	500ft/box	50 boxes/pallet

Premium Gripper Accessories

Rated **the best** by fitters.

Premium Gripper from QA Flooring Solutions is regarded by many fitters as their favourite choice when it comes to using a top-of-the-range gripper product. QA Premium Gripper is suitable for all types of luxury carpet installation and is ideal for high quality carpets. QA Premium Gripper has 50% more pins per length than our QA Standard Gripper and is 30mm wide – giving better strength and stability so you can be sure that the installation will be perfect and trouble free every time. QA Premium Gripper is available in all nail options - dual purpose, wood and concrete. It comes in 5ft lengths and 400ft per box.

30mm wide for added strength and stability

Premium Dual Purpose Gripper

Pre-nailed with dual purpose nails for wood and concrete subfloors.

Premium Concrete Nail Gripper

Pre-nailed with masonry nails, specially designed for ease and speed of installation and an exceptionally strong fixing on concrete subfloors.

Premium Wood Nail Gripper

Pre-nailed with specially tempered nails (threaded for ultimate holding power), for easy, fast installation on board and suspended timber subfloors.

Available in

Code	Nail	Pin Height	Size	Boxed	Pallet Quantity
QAA-GPR-DN	Dual	Medium	5ft	400ft/box	40 boxes/pallet
QAA-GPR-WN	Wood	Medium	5ft	400ft/box	40 boxes/pallet
QAA-GPR-CN	Concrete	Medium	5ft	400ft/box	40 boxes/pallet

Adhesives Accessories

A choice of adhesives for a variety of different applications.

Heavy Duty Spray Adhesive

Suitable for most flooring applications including carpets, carpet tiles, underlays and textiles. Sticks to timber, chipboard, ceramic, stone, concrete, masonry, metals, most plastics, glass and rubber.

Available in

Code	Can Content	Box Quantity	Pallet Quantity
QAA-ADH-SA	500ml	12 cans	144 boxes

Strong Grip Gripper Adhesive

A high quality, gunnable adhesive – ideal for gap filling, fixing stair nosings, door strips and carpet grippers to most flooring surfaces and refitting skirting boards and covings. The approximate curing time is 24 hours.

Available in

Code	Can Content	Box Quantity	Pallet Quantity
QAA-ADH-GA	350ml	12 tubes	48 boxes

Fast Set Super Gripper Adhesive

A powerful, fast-setting, polyurethane adhesive ideal for fixing stair nosings, door strips, and carpet grippers to most floor surfaces. Exceptionally fast initial grab, with skin formation time of approx 3 minutes and a setting time of 8 to 10 minutes.

Available in

Code	Can Content	Box Quantity	Pallet Quantity
QAA-ADH-GA	350ml	12 tubes	48 boxes

Our Tapes are specially designed to give a strong, stable fixing that exceeds **British Standards** for various types of carpets and installations.

Gold Heatseam Tape

Perfect for conventional woven or secondary jute back carpets in light traffic areas – the metallised gold foil backing reduces heat loss into the floor, melting the adhesive more rapidly for faster seaming. It also slows down adhesive cooling giving you more time for pattern matching and allowing better control at lower temperatures for sensitive carpet piles and backings.

Available in

Code	Size	Box Quantity
QAA-TAP-GO	101.6mm x 20m	10 rolls

Double Sided Tape

Heavy duty double sided tape for securing felt backed carpets and other floor coverings.

Available in

Code	Size	Box Quantity
QAA-TAP-DS	50mm x 50m	24 rolls

Anti Plas Tape

Special double sided tape for vinyl flooring that doesn't allow adhesive from the tape to transfer to the vinyl (unlike standard Double Sided Tape).

Available in

Code	Size	Box Quantity
QAA-TAP-AP	50mm x 50m	24 rolls

Vapour Tape

A self adhesive seaming tape that creates an effective moisture barrier with improved joint seal protection and also strengthens underlay joints.

Available in

Code	Size	Box Quantity
QAA-TAP-VA	75mm x 25m	20 rolls

Barrier Jointing Tape

A jointing tape that can be used with the Barrier wood underlays for added joint seal protection and also giving the underlay extra strength and stability.

Available in

Code	Size	Box Quantity
QAA-TAP-BA	50mm x 15m	50 rolls

Tools - General Purpose Accessories

A range of **premium quality tools** for everyday general use.
